

Tamilselvan E

Full-Stack Developer | UI/UX Designer

+91 8056705541 | tamilselvane748@gmail.com | github.com/Tamilselvan55-code | Chennai, India

Professional Summary

Motivated Information Technology student with hands-on experience in full-stack web development, AI-integrated applications, and database management. Skilled in developing scalable web applications using modern frontend and backend technologies. Passionate about building innovative software solutions that solve real-world problems and enhance user experience.

Technical Skills

- **Frontend:** HTML5, CSS3, JavaScript, React.js, Responsive Web Design
- **Backend & APIs:** Node.js, Express.js, REST API Development
- Databases: PostgreSQL, Prisma ORM, MongoDB (CRUD Operations)
- **Design & Prototyping:** Figma, UI/UX Principles
- Programming Languages: Java (Basic)
- **Developer Tools:** VS Code, Git, GitHub, Prisma Studio

Experience

Full Stack Development Intern

June 2025

Innovaskill Technologies Private Limited, Chennai

- Developed responsive web applications using HTML5, CSS3, JavaScript, Node.js, Express.js, and MongoDB.
- Worked on frontend and backend integration to develop full-stack web applications.
- Gained hands-on experience in the Software Development Life Cycle (SDLC), including development, testing, debugging, and deployment.

Key Projects

Grocery Store Management System

Technology Used: React.js, Node.js, Express.js, PostgreSQL, Prisma ORM

Live Demo: <https://pazhamudhir-solai-project.vercel.app/>

GitHub: [GitHub - Tamilselvan55-code/Pazhamudhir_Solai_Project](https://github.com/Tamilselvan55-code/Pazhamudhir_Solai_Project) · GitHub

- Developed a full-stack grocery store management platform with separate user, admin, and delivery modules.
- Implemented product inventory management, category management, order processing, and secure user authentication.
- Integrated RESTful APIs with PostgreSQL using Prisma ORM for efficient data management.
- Designed a responsive user interface with an admin dashboard for product, order, and customer management.

Hospital Management System

Technology Used: React.js, Node.js, Express.js, MongoDB

- Developed a hospital management platform for patients, doctors, and administrators.
- Implemented patient registration, appointment scheduling, and secure role-based authentication.
- Built RESTful APIs for managing patient records, appointments, and hospital operations.
- Designed an intuitive dashboard to improve healthcare management and user experience.

Education

Rajalakshmi Engineering College, Chennai

2023 – 2027

B.Tech – Information Technology

CGPA: 6.69/10

Sri Jayeandra Saraswathy Vidyaalaya, Villupuram

2022 – 2023

HSC (Class XII)

85%

Certifications

- Full Stack Development Internship – Innovaskill Technologies Private Limited
- Java Foundation Certification – Infosys Springboard
- Frontend Web Developer Certification – Infosys Springboard
- Full Stack Web Development with AI Tools – Edunet Foundation – AICTE – EY
